

## Product: Alutex

### Material:

**Alutex** is lightweight flexible non-insulated air duct made of multilayer, polyester laminated aluminium foil reinforced with spiral high tension steel wire. Due to its exceptional flexibility can be easy installed on round and oval connectors.

### Application:

**Alutex** is made for low and medium pressure ventilation systems.

### Properties:

Good flexibility  
Good compression

### Product construction:

The product Flexible duct „Alutex A23“ include the following components:

Number of layers: 5

- 3 Layers of 7  $\mu\text{m}$  Aluminium
- 2 Layers of 12  $\mu\text{m}$  Polyester
- Steel wire

### Specification:

Temperature range: from  $-30^{\circ}\text{C}$  to  $+140^{\circ}\text{C}$ ,  
Diameters: from 82 mm to 508 mm,  
Standard length: 10 m.
